Experience teaching by knowledgeable and qualified academicians

Engage students to actively use technology in the scholarship of teaching and learning

Heighten chances of application to top universities through leadership and community outreach programmes

Prepare students for University Learning Experience with the comfort and guidance of pre-university environment

Promote student equity in the fields of academic, sports and character development

Reward academic excellence with variety of scholarship plans and financial discounts

Hear What Others Have To Say!

One thing that I really like about Nobel is the learning environment where I am allowed to be independent and take charge of my own learning. The support from teachers and staff in Nobel has really prepared me to face further obstacles in my educational pathways.

Eric Tan Zhi How - 11 Grateful

Throughout my 11 years in Nobel, I think what makes my experience extremely memorable are my friends and teachers. Whenever I am in need of help, they will always be there to help me which I am always grateful for. Without them, I don't think I will be where I am today as they have played a huge role in my Nobel schooling years.

Lee Kai Qi - 11 Happy
